

VALUE ADDING AGRICULTURAL & HORTICULTURAL SECONDS & FOOD PROCESSING WASTE STREAMS

CONCEPT TO COMMERCIALISATION CONTRACT MANUFACTURING SERVICES

Botanical Innovations has spent 2 years undertaking research and development to create a range of proprietary technologies to manufacture unique and novel products from agricultural and horticultural seconds and food processing waste streams.

We are able to turn low value seconds and processing waste streams into high value products.

CONCEPT TO COMMERCIALISATION

We offer a fixed price straight forward 4 step process for known production processes which takes a concept to a marketable product in a matter of months.

Stage 1 Product Prototype and Raw Material Assessment

Stage 2 Product Refinement

Stage 3 Product Specificaiton Development

Stage 4 Pilot Production Product Specification

CONTRACT MANUFACTURING SERVICES

New Product Development
Spray Drying
Botanical Extracts
Fermentation
Cold Pressed Oils
Research and Development
Product Formulation
Identification and Sourcing of Natural Chemicals for Existing Formulations
Marketing and BUbusiness PLanning
Small Batch Runs to Contract Manufacturing
